- b. Comparing the statistical data officially released by Taiwan and Hong Kong, it was apparent that the figure released by the Taiwan Customs Statistics in the value of "Taiwan exports to Hong Kong" is greater than that of "Hong Kong imports from Taiwan" published by Hong Kong Customs Statistics. As a result, if one only considers the figures of Hong Kong Customs Statistics, cross-strait bilateral trade would be underestimated. In addition, Taiwan has changed the policy and strategy for cross-strait bilateral trade since in Feb. 2002, and promoted exporters to be honest to write down China as their export goods' destination.
