

【領務重大訊息】

中央流行疫情指揮中心今(24)日表示，韓國近期病例數大幅增加已達 763 例，出現教會及醫院大型群聚，已進入社區傳播階段；另已指定大邱市、慶尚北道清道郡為特別管理地區。鑒於國人至當地感染的風險提高，故指揮中心宣布即日起提升該國旅遊疫情建議至第三級：警告(Warning)，提醒民眾避免至當地所有非必要旅遊。

此外，指揮中心亦同時宣布，自 2 月 25 日零時起，自韓國入境（不含轉機）的外籍人士，需進行 14 天居家檢疫；本國籍人士於 2 月 25 日、26 日自韓國入境者，須落實 14 天自主健康管理，另自 27 日零時起入境之本國籍人士則實施 14 天居家檢疫。

The number of coronavirus disease 2019 (COVID-19) cases in South Korea has risen sharply, with large clusters of infections at a church and in hospitals fueling the outbreak by community transmission. The city of Daegu and Cheongdo County in North Gyeongsang Province have been designated special management zones. Based on the risk of COVID-19 infection, the Central Epidemic Command Center (CECC) has raised its travel notice level to Level 3: Warning, and advises the public to avoid all unnecessary travel to South Korea.

Starting from February 25, foreign nationals entering Taiwan from South Korea (except for passengers who transit through South Korea) must undergo a 14-day period of home quarantine; starting from February 25 until the end of February 26, Taiwanese nationals entering Taiwan from South Korea must undergo a 14-day period of self-health management; and starting from February 27, Taiwanese nationals entering Taiwan from South Korea must undergo a 14-day period of home quarantine.
