## *Praise for* **BOWING TO BEIJING**

“China’s military build-up is a reality the United States must deal with and not just today, but well into the future. Conventional weapons systems, cruise and ballistic missiles, blue-water naval forces, and nuclear weapons are all part of Beijing’s aggressive plan. Brett M. Decker and Bill Triplett have written a compelling analysis of China’s plans and programs, and lay out a comprehensive and persuasive proposal for America’s response. Policy-makers must read this book.”

—**Ambassador John R. Bolton**, former permanent representative to the United Nations and under-secretary of state for arms control and international security

“To understand what China’s unprecedented rapid modernization and expansion of its military forces mean in terms of its clear objective to achieve regional supremacy in the western Pacific and beyond, *Bowing to Beijing* is an absolute must read. Brett M. Decker and Bill Triplett make clear that regardless of the vast economic relations between China and the U.S., unless we maintain our military deterrence capability, a serious confrontation looms just over the horizon.”

—**Admiral James A. Lyons, Jr.**, former commander in chief of the U.S. Pacific Fleet

“My Motown soul brother Brett Decker and Wild Bill Triplett take aim at communist China and hit the red dragon square between the eyes. Patriotic Americans need to read about the growing Chinese threat in *Bowing to Beijing*.”
